AGRICULTURAL.

PRESERVATION OF MANURE.-S. A. LAW, Esq in his address before the Delaware county, (N. Y.) Agricultural Society, makes ollowing sensible remarks in regard to the preservation manure.

While the full value of manure is admitted, how few farmers have their yards so to prepare and reserve the greatest amount ilizing compost. Instead of barn and stable yards made lowest in the middle to retain those liquids which chemical analysis and actual experience have shown to be more valuable, and to contain in a more concentrated form, farm yards are on sloping ground, as if constructed purposely for waste-and not unfrequently with a rivulet near by, to corry away all that may wash into it: instead of yards, in the fall of the year, filled with compost from the swamp, or from ditches, to be converted into manure, we see them empty, and usually provided with a ditch to carry off all moisture. Farmers who mean to be economical-who indulge in no unnecessary expense-and who would hesitate to spend a shilling for the gratification of a depraved appetite, by such practices as I have referred to, throw away dollars. Swamp mud turf, leaves, weeds, and in fine, all the refuse of a farm, useless as manure in a natural state when placed in the barn-yard or pig-sty, and thoroughly incorporated with materials there becomes the best of manure, amply repaying the farmer for the time spent in collecting

TAN-BARK FOR MANURE.-I have been in the habit of supplying my hog-pen liberally with tan-bark, which enables the hogs to manufacture a large quantity of manure. The bark absorbs the liquid part, and is also a mechanical benefit in keeping the manure open and loose, as it naturally has a tendency to harden and bake; and if put into the cornhill without sufficient care in planting, sometimes proves a positive injury. A day or two before using the manure I incorporate with it ashes and plaster; and by putting this mixture into a hill, I raise corn with good suc-E. R. HARTWICK.

PROTECTION OF BEES .- Bees in their undo. mesticated state, have sufficient protection No. 80 Market Street, five doors below against the frost of winter in the thick sides of the trees which they inhabit. A like protection was afforded by the straw hives formerly used; but the thin boards of which hives are generally made, leave the bees so much exposed, that multitudes in almost whole swarms. Burying them in the ground and carrying them into cellars, have been practiced with good success; but these methods are inconvenient and not often adopted.

A method which I have for several years adopted. I have found very convenient and successful.-My bee house is so broad as to admit two rows of hives, one fronting one way and the other the opposite. I place my hives eight or ten inches apart, and fill the spaces between and about them with straw leaving the mouths of the hives unobstructed I leave the straw about the hives late in the spring, till the old bees and the young brood will be secure from injury from late frost. I have generally used pea straw lest mice have used clean threshed wheat straw, and have never suffered any injury from it:

E D. ANDREWS.

STRAWBERRY RUNNERS .- These should be treated as weeds, and kept hoed from among the regular rows of strawberry plants. They have precisely the same effect upon the crop as the same quantity of weeds, and cannot fail to lesson the amount, as well as to diminish the quality. A writer in the Gardeners' Chronicle remarks, "So convinced am I of the propriety of cultivating this fruit in separate and distinct plants, and of cutting off the runners, that I have this season taken out a plant between each of my plantations, thus making the distance between each plant four feet by

THE MISER'S PRAYER .- Among a variety of curious papers of the late Mr. Ward, of Hackney, was found the following, in his own hand writing, which may appropriately be called the Miser's Prayer.

"O, Lord, thou knowest that I have nine estates in London, and likewise that I have lately purchased an estate in fee-simple in place of every other vermifuge ever offered, but al the county of Essex; I be seech thee to preserve the two counties of Middlesex and Essex from fire and earthquake; and as I have a mortgage in Hertfordshire, I beg of thee likewise to have an eye of compassion on that county, and as for the rest of the countles thou mayest deal with them as thou art pleased. O, Lord, enable the Bank to answer all their bills, and make all my debtors good which are very convenient to carry in the pocket. men. Give a prosperous voyage and return 40 the 'Mermaid' sloop, because I have ensured it and as then hast said the days of the lebrity of the Lezenges, that thousands of persons who have used them, and become acquainted with wicked are but short, I trust in thee that thou wilt not forget thy promise, as I have purchased an estate in reversion, which will be mine on the death of that profligate young man, Sir T. L. Keep my friends from sinking and preserve me from thieves and housebreakers; and make all my servants so honest and faithful that they may attend to my interests, and never cheat me out of my property night or day."

An ingenious Yankee has invented a machine which is destined to come into univer-Therefore when you want a real good Sherman's sal use. It consists of the attachment of a cheap, simple, and durable alarm to a lock of almost any description, so arranged as not to all Dr. Sherman's Lozenges are sold. His Agents interfere in any respect with the action of the lock, and so connected with the bolt that the latter canot be withdrawn, or even the latter canot be withdrawn, or even the attempt made without giving an alarm, at once distinct and sufficient to awaken any person in the vicinity and which may be distinctly heard at the distance of 20 or 25 rods.

The expense of this lock is no more than those in use, and it can be applied to the common lock; the improvement will no doubt be scon applied to almost every lock that is manufactured .- Farmer and Mechanic

FINHE children began to cry for Sherman's Lo-L zenges. The noise was not as loud at that ime, but it has kept increasing ever since, and now has became so great that the mouths of the fittle ones can scarce be stopped. Dr. Sherman sympa-thises with the little sufferers, and very much regre s that any of them should be disappointed. Knowing the vast benefit which has been conferred upon the community by the introduction of

WORM LOZENGES, he has entered into arrangements for entarging his Manufactory, by means of which he thinks he will be able to supply the demand. And the same pains and care will be taken, that these or lebrated Lozenges be made as they have always been, in or-der that those who depend upon them, may not be disappointed in their hopes. He knew when he commenced the manufacture of the Worm Lozen-ges, that they would superseds the use of every other vermifuge, as the Lozenge is very pleasant to the taste, speedy in its effects, as well as certain, and the quantity sequired to effect a perfect cure, is very small. These properties in connexion with the f ct that they are sold for 25 cents per box, thus

on rendered them popular to the community.

Dr. Sherman's

continue to cure Coughs, G lds, Gonsumption, Asthma, shortness and difficulty of Breathing, and other discases of the Lungs, with the same facility they did on their first introduction, and the people have now become persuaded by actual experience that on the accession of a slight cold, they have only to step to either the Dr's, office, or one of the Agents, and obtain a box of his Cough Lozenges, and to take a few through the day. By pursuing this course a cure is often effected in 24 hours, and the patient about his busin as. So great is the cotheir effects, will never be without them.

Philadelphia, 10 me., 13th, 1846 To T. B. Peterson,—Having been requested a give my opinion on the merits of M'ALLIS TER'S SALVE, I am willing to coumerate some f the benefits which I have experienced in the use f the article.

In the spring of 1845, I had an attack of Eryeipelas in my face which became very painful, and extended into one of my eyes, being attended with fever, my distress was great and I began to be fear

ful of being my eye.

Although not much of a believer in what is commonly called quack medicines. I purchased a box and made an application to my face. To my surprise the pain soon abated, and in a week's time was entirely cured, and I firmly believe that it as the salve, under Providence that cured me. From that time to the present, I have used the tricle as occasion required, and in every case where have used it, I have found a decided benefit At one time, on going to bed at night, my threat was so sere that I swallowed with difficulty, but by an application of the salve I was relieved lefore

I have used it in case of burns, bruises, sprains, and flesh cuts, all with the happiest effects, and one case of poisoning by a wild vine in the woods, has been dried up and cured by a few applications. From my own experience, I would strongly reommend it to all, as a cheap, convenient, family

medicine.
I have become so partial to it, that I expect to keep it constantly in my family.

Mrs. GARRABRANTZ, of Bull's Ferry, was also cured of consumption by this Balsam when all other remedies failed to give relief-she was reduced to a skeleton. Dr. A. C. Casile, Dentist. 281 Broadway, has witnessed its effects in several cares where no other medicine afforded relief-but the Balsam operated like a chaim. Dr. C. also witnessed its wonderful effects in curing Asthma. which it never fails of doing. Spitting Bloo I, slar-ming as it may be, is effectually cured by this Balsom. It heals the ruptured or wounded blood

vessels, and makes the lungs sound again. Rev. HENRY JONES, 108 Eighth avenue. was cured of cough and catarrhal affections . 1 50 years standing. The first dose gave him more relief than all the other medicine he had ever taken. Dr. L. J. Beals, 19 Delancy street, gave it to sister-in-law who was laboring under consumption, and to another sorely afflicted with the Asthma. In both cases, its effects were immediate, soon re-

etoring them to comfortable health.

Mrs. LUCRETIA WELLS, 95 Christic etreet, suffered from Asshma 42 years. Sherman's Bal-sam relieved her at once, and she is comparatively well, being enabled to subdue every attack by timely use of this medicine. DIR. LINE IROTES Vegetable Universal Pills, The only known Medicine that at the same time purges purifies and strengthens the system. Lonnon, July 7, 1846.

LONDON, July 7, 1846.

R. LE ROY'S Pills are a new medicine which has just appeared, and is fast taking the places of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarasparilla and Wild Cherry, so united that they act together; the one, through its admixture with other substances, purifying and purging, while the other is strengthening the system. Thus those pills are at the same time tonic and opening; a desideratum long and eagerly sought for by medical-men, but never before discovered. In other words they do the work fore discovered. In other words they do the work of two medicines, and do it much better than any two we know of; for they remove nothing from the system but the impurities; so that while they purge they strengthen; and hence they cause no debilitation, and are followed by no re-action. Dr. Le Roy's pills have a wonderful influence on the blood; they not only purify without weakening it, but they remove all poxious particles from the chyle sefore it is converted into fluid, and thus make impure blood an utter impossibility. As there is no debilitation, so there is no nauses or sickness sttending the operations of this most excellent of me-dicines, which never strains or tortures the digesfectly natural manner; and hence persons taking them do not become pale and emaciated, but the contrary; for while it is the property of the Sarsaparilla, united as it is with other ingredients, to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and bence a robust state of health is the certain result of their united operations.

health is the certain result of their united operations. Price 25 cents per BOX.

rous minerals.

The principle upon which this Medicine acts, is by assisting and barmonising with nature; it drives out all foul acrimonious humors from the blood and body, and by assimilating with and strengthening the gastrio juice of the stomach, it assists digestion; in short there is not a vein arrery, muscle or nerve in the human body, that is not strengthened by the PANACEA, and it also possesses the remarkable property of removing mercury from the hones and joints.

FOR ERUPTIONS OF THE SKIN. Scurvy, Scorbutic Affections, Timora, Scrofula or Kings' Evi, White Swellings, Erysipelas, Ulcers, Cancers, Running Sores, Scabs and Biles, time and a determined perseverance in D. SWEET SER'S PANACEA, will effect a cure.

FOR INDIGESTION. Rejection of food, Nauses, Vomitings, Nervous af fections, Billious complaints, Head ache, Paleness, or Female Irregularities, Dr. SWEETSER'S PA-NACEA will soon effect a cure; but if obstinate or attended with griping. flying pains, the doss should be increased, and the cure will soon be of fected. Let not the patients frighten themselve with the idea that they are too weak to take much ting med cine put not weskness into the frame, bu most certainly draws weakness out, leaves strength in its place, and by giving composed sleep at night. and an appetite to relish any food, re-unimates th whole frame with vigorous action, clearing the

mind and improving the sight. SCROFULA AND GLANDULAR AFFEC-

TIONS.
Scrafult is said to be heriditary, the infant receiving from its parents the seeds of this discas-, which increases with its years, if neglected and not submitted to frequent purification with Dr. SWEETSER'S PANACEA. The glands are placed in the corners of the body, and out of the way of direct communication; their real u-e i- a subject on which much difference of opinion prevails; it suffices us to know that when in a discused state, they are capable of being purified and cleansed by a long course of Dr. SWEETSER'S PANA-CEA, which restores them to sound and proper action. Scrofulius persons can never pay too much attention to their blood, its purification shou'd be their first thought, for after a long course of perseverance, they will ever cure heredit my discuse.

In cases of JAUNDICE, ASTHMA, LIVER COMPLAINTS, TIC DOLOREUX RHEU MATISM OR RHEUMATIC GOUT, Dr. SWEETSER'S PANACEA cannot be too high y extelled; it reaches out the very root of the disease, and by removing it from the Blood makes

a cure certain and perm ment.

For discusses of the Bladder and Kidneys, Strictures, Gravel, Stone, Piles, Fistula, Urinary Ob-structions and Extreme Costiveness Dr. SWEET-SER'S PANCEA is the best remedy ever tred; it removes all those acrimonious humors from the Blood which give rise to the above diseases, and by keeping the blood in a pure condition, insures

For DROPSY, FALLING OF THE BOWELS, Impur ties of the Blood, Mercurial Taint, Weak ness of the Spine Flom of Blood to the Head Gid diness, Singing and Buzzing Noise in the Head and Ears, Dr. SWEETSER'S PANACEA will give certain relief; in all severe and chronic cases, patients cannot be too often reminded that lar er doses and perseverance will effect a cure. In Chills and Fevers. Bilious Fevers. Affects

of the Eyes and Ears, Spongy and Bleeding Gums Bronchitis and recent Coughs and Colds. Dr. SWEETSER'S PANACEA will be found efectly sure and certain in its effects. GRAVEL AND URINARY COMPLAINTS There complain's are generally strended with the most fetal consequences, and are seldom or ne. ver cured by the present mode of treatment; the usually accompany the patient t the grave, after uffering the most excruciating pain and torture, The cause of these complaints are the same as all

others, the dross of the blood becomes encrusted on secretions and stoppages of mine. You will find be most powerful dureties of no use, as they only increase the quantity of urine and do not pacify and strengthen the parts. By purifying the blood with Dr. SWEETSER'S PANACEA, you re move the cause of the disease, consequently it can not exist any longer, after sufficient perseverance in its use has deprived the blood and body of all

crimonious humors and incrustation. DISEASES OF THE LUNGS-CONSUMPTION. This is a very prevalent and fatal disease; it reults mostly from neglected coughs, colds and bronchitis, also from improper treatment in many other cases, such as measles, fevers, inflammations and small pox, and a host of other badly treated diseases; where the cause, instead of having been thoroughly removed from the blood and body, have only been palliated or removed from one part to break out it another. By divesting your bodies of all foul hu-more, through the medium of Dr. SWEETSER'S

this is the reason that consumption is so prevalen

BILES, SORES AND ULCERS, Which you see on the exterior, come from and have their source in, the interior, and might just as well have settled on your lungs, liver, or any other part; which we know they frequently do, and produce most violent inflammatory disorders. The humor which occasions these sores is of a highly acrimonions burning nature. We know it from the pain it gives in forming, and afterwards its rapidly olderating and correding the flesh and skin of the part where it breaks out. This shows the necessity of frequently purifying the blood with Dr. SWEETSER'S PANACEA, and keeping such malignant humers in subjection. Should you have a bile or ulcer, be thankful that nature has taken trouble to warn you of the danger your life and bo dy is in, for it is a warning that the blood is foul. of the surface of your body for its seat, consump-tion of the lungs would have been the consequence. Delay not then, to purify and cleanes with Dr Sweeteer's Panacea. —

SPINE DISEASE Spinal affections, enlargement of the bones and joints, white swellings, hip joint complaint, ruptures, falling of the bowels and wom's disease, will find a speedy cure in Dr. SWEETSER'S PA-NACEA. Where the disease has been of long standing, the time required to make a cure will be onger; but the patient may rest assured that a letermined perseverance will effect it.

BRONCHITIS, ASTHMA AND DISEASE OF THE WINDPIPE.

These disease proceed from the seriosity of he throat and lungs, and stopped them up, so that they cannot draw sufficient air in for respiration. Dr. SWEETSER'S PANACEA will give immehate relief, and to make the cure perfect and certain, it should be continued some time after, to free the system of all bad humors.

RHEUMATISM, RHEUMATIC GOUT AND MERCURIAL DISEASES

Find a safe and speedy cure in Dr. SWEET-SER'S PANACEA. It cures by searching every blood vessel and artery, and driving out all impurities and foul humors secumulated therein, which rities and foul humors accumulated therein, which is the cause of rheumatism, gout and swellings of the joints. The deleterous effects of calomel and other mineral poisons, readily yield to its sovereign influence; indeed, when its valuable properties become fully known, the use of all mineral poison will be consigned to 'the tomb of all the Capulets,' and only be thought of as a by-goas custom of the darker ages. Dr. Sweeteer's Panacoa is also a sure cure for dyspapais, piles, costivances, vertigo, head-sche, pain in the breest and liver complaint.

PEVER AND AGUE. Pever is always caused by a disorderly move-ment of the blood, struggling to free itself of some-thing that encumbers it; in fact, every hind of fe-ver is nothing more than a struggle between the blood and corrupt humors, and as soon as the cor-

THIS Medicine is warranted, on oath, not to contain a particle of Calomel, Corrosive Sublimate, Arsenic, Chloride of Gold, or any deleterous minerals. pills, powders, or tonic mixtures; this is going from bad to worse, as these vegetable pills, powders, &c., bad to worse, as these vegetable pills, powders, &c., are nothing but mercury and quinine in disguise, which may for a time drive the disease so far into the body as not to be perceptible, but very soon it will break out again with fearful violence. To core ague and fever, the cause of the disease must be removed out of the blood and body, which can be effectually done by using Dr. SWEETSER'S PANACEA, which purifies, cleanses and strengthess. It contains nothing that can possibly injure, and its use is always a safeguard against chills and fovers.

In ALL CASES OF PILES, Dr. SWEETSER'S PANACEA will effect a very speedy cure. It removes from the blood, stomach end bowels, all those foul acrid burning humors, which are the cause of Piles and Costiveness, and by strengthening the digestive organs, improves every part of the entire body.

FLATULENCY AND WIND. These diseases are caused by the stomach and bowels being choked up with viscid alimy matter, the air which enters them cannot e-cape until forced by some contraction of the somach to expel it; hence the cause of pain. A few doses of Dr. SWEETSER'S PANACEA will convince the sufferer that relief is attained

GREAT MEDICINE FOR CHILDREN. Parents will find the PANACEA a valuable medicine for their children, keeping their bodies in a healthy condition, thereby assisting their growth; children or grown persons, after taking it, are not liable to be attacked with an epidemic as before, as it always leaves the blood in a pure condition, and the entire system in a strengthened state; it drives out all kinds of weskness from the body and leaves all heal by within.

MARRIED LADIES Will find Dr. SWE ISER'S PANACEA a mediwill and Dr. SWETSER'S PANAGEA a medicine purely adapted to their use. Most ladies during the period of pregnancy are afflicted with piles. Dr. Sweetser's Panacea, by regulating the bowels, will entirely obviate this, and its purifying properties on the blood and fluids, insures to them healthy off-pring. No one who is a mother should be without it, and those who are nursing will find it of great benefit to the health of their infants. For harrenness and all diseases of the womb, it is without a rival in the entire history and estalogue

of medicines; by its extraordinary strengthening power, it stimulates and strengthens the womb, a weakness of which is the cause of failure to have offspring. NERVOUS DISEASES. Under this head may be classed Palpitation of the Heart, Tre Doloreaux or Facusche, Neuralgia, Indigestion, Toothache, Melancholy, Hysterics, and in fact, every disease caused by the sharp, biting, acrimonious humors irritating the nerves; the nerves receive the morbid impression from the stomach, or rather from the blood through the agency of the stomach and dige tive organs, and although other parts of the body are apparently the seat of

the discose, still it is caused by the morbid impres-sion conveyed from the blood by the nerves, to that part. A few doses of Dr. SWEETSER'S PA-NACEA will soon assure the patient that he has the cure in his possession, ERYSIPELAS, on ST. ANTHONY'S FIRE. This is an inflammatory disorder, alw ya stiended with more or less pain. It proceeds from the foul, acrimonious humors lodged in the blood and fluids, settling on the limbs and face, causing extreme pain and fevers; all applications on the surface are worse than useless, as they only tend to throw the disease in some other part, and perhaps cause death. Bleeding is likewise improper. To cure the disease you must get rid of the cause; only manage to get the foul humors out of your blood. and you will be well in a day. Dr. SWEET-SER'S PANACEA, a thorough purifier of the blood, will search out every impurity in the more remote parts of the body and expel it through the medium of the bowels. There is not a vein, arte-

prove. To take it when you are well is to keep well; and when sick to become well. DR. SWEETSER'S PANACEA, beingcomposed only of a vegetable matter, or modest nerbe, and warranted, on outh, as containing not one paris found to be perfectly harmtess to the mo-tiender age, or the weakest frame, under any stage of human suffering; the most pleasant and benign in its operation that was ever off-red to the world; and t the same time the most certain in sear-hing out the root of any complaint, however deep, and of

ry, moscle or organ of the entire framework of man, that Dr. Swortser's Panacea does not im-
